Customer Satisfaction through Commitment to Quality

Universal Services Inc. is a privately owned corporation that began operation in 1998. Universal Services corporate office is located in Hastings, MN with a second location in Rogers, MN. We currently install over 2000 job sites per year consisting of partnerships with Fortune 100 companies down to small private entities. All aspects of your job starting with the design, engineering and estimate through the final as-built and site restoration will be handled by our experienced professionals. We are a rapidly growing business with the ability to cover the entire state of Minnesota, as well as Wisconsin, Iowa, North and South Dakota. We offer a multitude of services allowing our customers the ease of working with a single contract solution.

Universal Services Inc. is committed to making safety our #1 priority. We continually strive to develop and maintain a comprehensive safety plan focusing on our employees, customers, contractors, business partners and visitors. All employees are trained and encouraged to practice safe working behavior to ensure production continues as scheduled and without interruption. Universal Services Inc. has a full range of equipment to complete any size job. We currently run multiple Directional Drilling, Installation/Maintenance and Restoration crews across the state. Each team is equipped with state of the art, well maintained vehicles and machinery. Universal Services Inc.'s fleet of newer model vehicles ensures that our employees and equipment get to the job site reliably and safely. Our commitment to safety and equipment health is backed by having two full-time mechanics on staff to prevent lost production time enabling us to finish your project on or before schedule.

We pride ourselves in being a turnkey construction solution that specializes in all of the following:

- Directional Drilling
- Aerial Cable Maintenance
- Fiber Splicing
- Coax Cable Installation
- Coax Cable Maintenance
- Right of Way Restoration
- Concrete Patching and Repair
- Electrical Installations
- Aerial Cable Installation
- Fiber Installation
- Fiber Maintenance
- Coax Cable Splicing
- Low Voltage Internal Wiring
- Asphalt Patching and Repair
- Cell Tower Installation/Maintenance
- Utility Spotting

Universal Services Inc. is proud to be an industry leader in the state of Minnesota. Our extensive industry knowledge combined with our professional staff makes us the right choice for your project. We specialize in creating long-term business partner relationships and continue to grow at a rapid pace because of this philosophy. We look forward to working with you in the near future and thank you for your consideration.

Cordially,

Dan Hartung
President/CEO
